7 July 1988

MEMORANDUM FOR: OMS Training Officer

FROM: [REDACTED]

SUBJECT: Report of Successful Heimlich Maneuver

1. On 25 June 1988 at [REDACTED] Florida, a [REDACTED] was sitting across the table from me. He gasped, stood up and became agitated. I immediately assessed that he could neither cough nor speak and was moving no air. [REDACTED] is a 6-foot barrel-chested 200 pounder. The first Heimlich maneuver was unsuccessful but the second more forceful one popped a large chunk of beet onto the floor. [REDACTED] immediately resumed normal breathing with no complications. He said he could feel the beet sliding down his trachea while he was choking.

2. Although I was not trained initially in OMS, I was responsible for initiating all CPR and ACLS courses in OMS and the continued training opportunities helped maintain my skills.
